

The timber treatment operations of

Scanpole

Alexander Dock, Newport, Wales NP20 2WA

have been assessed and certified as meeting the requirements of the Wood Protection Association

Benchmark Quality Approval Scheme

for the preservative impregnation of the softwood components listed below in accordance with the standards and practices defined in the WPA Manual - Industrial Wood Preservation:

Pine poles.

Pine fencing (round (Cundy-peeled or machined) or sawn); half round/sawn rails and gates.

Stay blocks 125x250 mm in pine, larch and Douglas fir.

Detailed clarification of the scope of this certificate and the applicability of the Benchmark quality scheme is available from the Wood Protection Association.

This scheme does not confirm compliance of the preservative used with British Standard or other specifications - that is the responsibility of the preservative manufacturer.

This certificate of conformity is valid until the date indicated and remains valid subject to satisfactory audits by the WPA.
